

Settings

In the menu item Basic configuration – Settings, you can control the behaviour of the Facing note in widget capture.

Facing archive

Here you specify, by a date in the past, which old Facing values are still made available to the client as historical data.

Facing capture – last values

Using this drop-down list, you determine how the values from a previous Facing capture should be displayed.

- Display only: The values are displayed but cannot be edited
- Automatically apply: Old values are transferred into the new Facing capture but can then be changed.

Capture VEs in Facing capture

This checkbox controls whether you perform the Facing in VE steps or not.

Facing note in widget

Here you specify, in days, from when the widget should change if no Facing has been performed.
