

The different ways to enter products

Several options are available for entering products.

The appropriate method can be chosen depending on the use case.

The following Functions offer different ways to Add products to the Cart.

- [Order template](#)
 - Predefined product list created in the backend, e.g. for promotional offers at Christmas
- [Favourites](#)
 - Quick access to frequently used products
- [Import](#)
 - Option to place Orders via an Excel import
- [Consignment stock](#)
 - Stock-bound products
- [Listing](#)
 - Entry within the Listing defined for the Customer
- [Plus entry](#) / Product entry
 - Standard for entering products
- [Presentation mode](#)
 - Enters Items viewed via Presentation mode
- [Product hierarchy](#)
 - Entry within certain Product groups
- [Cart widget](#)
 - Direct entry in the Cart
